

LIST OF PERFUMES - October 2024

A few words about our perfumes: First of all, our perfumes are **NOT imitations**. The only reason why someone might think they are “imitations” is that **our perfumes are inspired by the 200 best perfumes in the world**. All our perfumes are **certified, tested and produced** in the **European Union**, and **NOT** in some third world country. They are **all perfumes (PARFFUM)**, contain the highest amount of essential oils in percentage (from **20% to 30% essential oils** and their amount is marked on the perfume packaging). The list of perfume correspondences strives for the most accurate description of a particular aroma. **The essential oils for our perfumes are produced by the world-famous company DROM, which is a co-shareholder in FM WORLD and it is this company that sells essential oils to the companies producing the branded perfumes we know.**

It is important to know that the companies mentioned here have no economic, organizational or any other level of cooperation with our products.
